FITRI JOHAN BIN SHAHRUL MAZLI

ABOUT ME

Final-year Information Technology student with hands-on experience in data analysis, visualization, and database technologies. Skilled in Python, SQL, Power BI, pandas, Hadoop, and Hive, and seeking a Junior Data Analyst or related entry-level role.

EDUCATION

Bachelor of Information Technology (Hons.) **Oct 2023 – Present**

Universiti Teknologi MARA (UiTM)

- CGPA: 3.39/4.00
- Dean's List: Semester 1 (2023/2024), Semester 6 (2026)
- MUET: Band 4

TECH PROJECTS

MediTap: Mobile Application for Caregiver-Assisted IoT Medication Dispenser | Final Year Project

- Designed, developed, and deployed a functional IoT medication dispensing system integrated with an Android application for caregiver-assisted medication management.
- Developed the mobile application using Java, Android Studio and Firebase Realtime Database for scheduling, notifications, user management, and medication logs.
- Integrated ESP32, DS3231 RTC, servo motor, buzzer, and push button to support automated time-based dispensing and medication status tracking.
- Conducted functional testing on dispensing accuracy, compartment selection, response time, and medication logging to validate the completed prototype.

Student Performance Big Data Analysis | Data Analytics Project

- Analyzed 25,000 student records to identify factors influencing academic performance, including study hours, attendance, study methods, and internet access.
- Loaded and managed structured CSV data using Hadoop HDFS and Apache Hive, including table creation and analytical querying with HiveQL.
- Performed aggregation and comparative analysis on subject scores, attendance levels, grade distributions, and student performance patterns.
- Developed interactive Power BI dashboards to visualize key performance indicators and highlight trends across academic and behavioral factors.

HR Data Analysis for Employee Retention | Data Management Project

- Analyzed HR datasets to evaluate employee attrition, job satisfaction, productivity, and workforce retention patterns.
- Combined insights from IBM HR Analytics Employee Attrition & Performance and Employee Productivity and Satisfaction HR Data.
- Examined key employee attributes including department, job role, age, overtime, productivity, and satisfaction to identify factors associated with attrition.
- Identified workforce trends and retention-related patterns through data analysis and visualization, supporting more informed HR decision-making.

Healthcare Equipment Management System | Web Application Project

- Developed a Java-based web application to manage healthcare equipment records, maintenance records, reservations, user login, and registration.
- Implemented basic CRUD operations and database connectivity using JSP, Servlets, JDBC, MySQL, and Apache NetBeans.
- Practiced web application development, database management, and system flow design through an academic project.

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, C++, PHP, SQL
- **Web Development:** HTML, CSS, JSP, Servlets, JDBC, XAMPP
- **Mobile & IoT:** Android Studio, ESP32, Arduino IDE
- **Database & Backend:** MySQL, phpMyAdmin, Firebase
- **Data Analysis & Visualisation:** pandas, NumPy, Matplotlib, Seaborn, Power BI,
- **Big Data Technologies:** Apache Hadoop, HDFS, Apache Hive, HiveQL
- **Tools & Platforms:** Jupyter Notebook, GitHub, VS Code, Apache NetBeans, WinSCP
- **Operating Systems:** Windows, Linux/Ubuntu

RELEVANT WORK EXPERIENCE

Service Crew | McDonald's **March 2022 - June 2022**

- Worked as part of a team in a fast-paced customer service environment.
- Assisted with daily restaurant operations, including customer service, order handling, and maintaining cleanliness.

CO-CURRICULAR & LEADERSHIP EXPERIENCE

Academic Exco | Information Technology Club, UiTM **Dec 2024 - Dec 2025**

- Assisted in coordinating academic-related activities and student engagement initiatives under the IT club.
- Supported communication, planning, and coordination among committee members.
- Contributed to student-focused programmes and discussions related to academic development.

Faculty Representative | Modul Kepimpinan Profesional, Setiu Wetland, Terengganu **April 2024**

- Selected as a faculty representative for a leadership development programme involving teamwork, communication, and discipline-based activities.
- Participated in a group case study at Setiu Wetland to observe local economic activities, community issues, and eco-tourism potential.
- Worked with team members to analyse findings and present the importance of Setiu Wetland as a community and tourism asset.

ACHIEVEMENTS & AWARDS

Achievement in IRISE Programme

- Recognised for participation and contribution in a university programme involving teamwork, communication, and idea development.
- Strengthened confidence, discipline, problem-solving, and presentation skills through programme activities.
